Dell Wyse Xenith
The zero clients built for Citrix HDX.
Meet Dell Wyse Xenith, built for Citrix HDX

Your desktop just got easier

Delivering major advances in performance, simplicity and longevity, the Xenith range of next generation zero clients have further elevated the category Dell Wyse itself created.

**Performance**  It’s built for Citrix HDX. So users receive an instant-on desktop and enjoy a rich media experience that doesn’t tax servers or networks.

**Simplicity**  And it’s easy too. With simple plug-n-play operation and auto-configuration.

**Longevity**  Xenith takes care of everything it needs to stay up-to-date by adapting to network security and protocol advances.

**Flexibility**  Tailor your zero clients to your performance, budget, and size requirements.

---

Dell Wyse 3002-Xenith
With its extremely compact footprint 3002-Xenith is the ideal companion device for Citrix XenDesktop and Citrix HDX technology.

Dell Wyse 5000-Xenith
It’s all about security and performance, and 5000-Xenith is our fastest zero client for Citrix yet.
Your desktop just got easier. Much easier.

They might be zero clients, but the Xenith family lacks nothing in the cool-features department and arrives ready to go, straight out of the box.
Performance

Why let your desktop hold you back?

We believe zero clients should give you a no-limits experience. It’s this vision and thinking that gets a Dell Wyse Xenith zero client from power-on to productive in just six seconds.

3002-Xenith's extremely compact and efficient design sports gigabit LAN and dual band wireless a/b/g/n, so it's ready for serious tasks whether you’re wired in or not.

For those power users needing even more performance, connectivity and power, there's the new dual-core 5000-Xenith. It takes the Dell Wyse Zero engine to entirely new levels of performance, connectivity and best of all, productivity. Proving that zero limitations means just that.

Armada processor

3002-Xenith features a dual core ARMADA PXA2128 1.2GHz SoC and is ready to work in seconds.

AMD G-Series APU

The advanced technology contained in this dual-core Accelerated Processing Unit (APU) from AMD enables exceptional graphics and display performance.

- Dual-core technology
- Integrated Radeon graphics processing

Continue tour
Welcome to the Dell Wyse Xenith family

Establishing a new price/performance standard for zero clients for Citrix, the new 3002-Xenith and 5000-Xenith provide an exceptional user experience at a highly affordable price for Citrix XenDesktop and XenApp published desktops. With zero attack surface, ultra-secure Xenith family zero clients offer network-borne viruses and malware zero target for attacks.

Xenith family zero clients deliver outstanding performance with their Dell Wyse Zero architecture, and a built-in media processor delivers smooth multimedia, bi-directional audio and Flash playback.

Ultimate performance.
Dual-core processing power on both Xenith models, optimized for Citrix HDX and Citrix XenDesktop. Hardware accelerated monitor rotation support (L-shaped dual monitors).

Super secure.
No attack surface for complete immunity to viruses and malware.

Instant-on.
Powers on in just 6 seconds; goes from standby to connected in 9 seconds.

Zero management.
Plug-n-play operation with auto-discovery and zero configuration, and hands-off management.

Well-connected.
Connect to LAN, WAN and Wi-Fi network; adapts to the latest network security and protocols.

Green.
3002-Xenith draws less than 7 watts of power in full operation and 5000-Xenith draws less than 14 Watts of power in full operation.
Dell Wyse Zero engine It's all about Zero

Technology powering a new world of cloud connected smart devices

Zero engine is software technology that simplifies the development of cloud-connected smart devices.

It’s already in use in millions of devices, including thin clients, handheld smart devices and zero clients. And connects users to cloud computing services and virtual desktops with an efficient communications and protocol technology.

For example, Dell Wyse PocketCloud uses Zero functionality to expand the iPhone and iPad’s browsing capability to include Flash support, by intelligently using its cloud resources.

Zero engine is a mature, tested and purpose-built portable software technology for next generation zero clients and smart devices connecting to the Internet and the cloud.

Its tiny footprint – less than the size of a digital photograph addresses the limitations with current embedded options, which can be up to 8GB or more in size – and requires just six seconds to boot devices into productive desktops. And since Zero engine is original technology – with no published API (like Windows or Linux-based embedded products) – it’s inherently virus-free and secure.
Citrix Receiver 3.x for Xenith

Designed by Dell Wyse in collaboration with Citrix specifically for these Dell Wyse zero clients, Dell Wyse 3002-Xenith and 5000-Xenith provide:
- Dual band a/b/g/n WiFi
- HDX Multi-Stream
- HDX MediaStream
- HDX 3D & HDX 3D Pro
- HDX RealTime
- HDX Plug-n-Play
- Session Reliability
- Progressive Display
- Bandwidth measurements
- Local Text Echo
- CSG & CAG support (in CSG Mode)
- Desktop Restart
- Citrix logon experience

Dell Wyse Xenith Manager

Designed in collaboration with Citrix, Xenith Manager, now part of Citrix XenDesktop 5 and later, delivers tighter integration and vital flexibility and device longevity benefits. And, as it’s provided on the XenDesktop 5 install media – XenDesktop and Xenith™ deliver a fully integrated and unprecedented combination of simplicity, performance and security for office-based workers, while ensuring a high-definition user experience.

Integrated intelligence works with XenDesktop to take care of discovery, initial configuration and updates through the network – as well as giving you control – when and if you need it. Xenith is the only end point integrated into XenDesktop management console (Desktop Studio).
Dell Wyse 3002-Xenith or 5000-Xenith?

Dell Wyse 3002-Xenith

With its extremely compact footprint 3002-Xenith is the ideal companion device for Citrix XenDesktop utilizing Citrix HDX technology. Choose 3002-Xenith when you need a compact zero client for:

- Fast plug-n-play deployment.
- Fast boot-up and production readiness.
- Auto-configuration and zero management.
- High density user workstations.
- Highly scalable deployments.
- Risk free data access in sensitive environments.
- Multiple-user hot-desking.
- Multimedia and high definition graphics.
- Users needing dual digital display – Minimal energy use and reduced carbon footprint.
- Small size and high affordability.

Dell Wyse 5000-Xenith

Builds on the success of its little brother and takes Citrix zero client performance to a new level – with additional dual-core processing power, much higher performance and even higher levels of connectivity. Choose Xenith Pro 2 when you need a zero client for:

- Even greater Citrix HDX performance – for truly dazzling multimedia, HD Flash content and unified communications.
- Users needing dual digital display support and L-shaped configurations.
- Simply, those seeking the best Citrix HDX user experience.

We'll help you choose which Xenith zero client will suit you best.
Rear of device
Mount 3002-Xenith to the rear of a monitor with optional mounting kit (uses free VESA mounts).

Three external USB 2.0 ports

Connectivity Dell Wyse 5000-Xenith

Some features require local OS support and may not be available with all OSs.
That’s Dell Wyse EarthSmart™ computing

Through our EarthSmart Computing initiative we are committed to helping organizations implement a greener computing strategy – one that delivers a more efficient and productive computing experience for your users with a positive effect on energy wastage, heat and carbon emissions.

Green power
The Dell Wyse Xenith family packs a considerable punch with its green credentials. From reduced manufacturing impact and end-of-life recycling waste, to as little as 7 watts energy consumption, deploying Xenith zero clients will enable your organization to achieve a lighter carbon footprint.

| I/O peripheral support | One DisplayPort (Optional DisplayPort to DVI-I adapter available)  
One DVI-I port. DVI to VGA (DB-15) adapter included  
Four External USB 2.0 ports (2 front; 2 back)  
Serial and Parallel connectivity supported through USB 2.0 adapters  
Enhanced USB Keyboard with Windows Keys (104 keys) and PS/2 mouse port.  
PS/2 Optical mouse included |
| Networking | 10/100/1000 Base-T Gigabit Ethernet  
RJ45 or SFP Module  
**Factory options:**  
Single and Dual Band 802.11 a/b/g/n integrated wireless with external dual antennas  
SFP Module support for Fiber NIC network connectivity |
| Display | VESA monitor support with Display Data Control (DDC) for automatic setting of resolution and refresh rate  
DisplayPort: 2560x1600@32bpp  
DVI-I: 1920x1200@32bpp  
Dual display: 1920x1200@32bpp |
| Audio | Composite Audio Jack: 1/8-inch mini, 16-bit stereo.  
Internal Mono speaker. |
| Dimensions | Height: 6.7 inches (170mm)  
Width: 1.6 inches (40mm)  
Depth: 7.3 inches (185mm) |
| Weight | 2.05 lbs. / 0.93 kg |

**Mountings**
- Vertical feet standard.  
- Horizontal feet optional.  
- Optional Dell Ergotron mounting bracket.

**Device Security**
- Built-in Kensington security slot (cable sold separately)

**Power**
- Worldwide auto-sensing 100–240 VAC, 50/60 Hz 65W, 19V DC.  
- Energy Star V.5.0  
- Phase V external and EuP compliant power adapter  
- Average power usage with device connected to 1 keyboard with 1 PS/2 mouse and 1 monitor: Under 9 Watts

**Temperature Range**
- Operating: 32° to 104° F (10° to 40° C), horizontal and vertical positions.  
- Storage: 14° to 140° F (-10° to 60° C)

**Humidity**
- 20% to 80% condensing  
- 10% to 95% non-condensing

**Safety Certifications**
- Ergonomics: German EKI-ITB 2000, ISO 9241-3/-8  
- Safety: cULus 60950, TÜV-GS, EN 60950  
- RF Interference: FCC Class B, CE, VCCI, C-Tick  
- Environmental: WEEE, RoHS Compliant.

**Warranty**
- Three-year limited hardware warranty.  
- Optional WyseChoice extensions and upgrades at [www.wyse.com/warranties](http://www.wyse.com/warranties)

Dell Wyse Xenith family

Your desktop just got easier. Much easier.

The zero clients built for Citrix® HDX

Delivering major advances in performance, simplicity and longevity, the Dell Wyse Xenith family of next generation zero clients – 3002-Xenith and 5000-Xenith – are redefining the ‘zero’ category Dell Wyse itself created.

Absolutely Zero. That’s Dell Wyse Xenith

Which means – Zero delays:
with a sub-9 second startup time.

Zero management:
Pure plug-and-play auto set-up
that does everything including ongoing updates.

Zero security issues:
No published APIs means immunity from viruses or malware.

Zero energy use (almost):
Average under 9 watts of power.

Zero compromise user experience:
Built for Citrix – 3002-Xenith and 5000-Xenith live-and-breathe Citrix XenDesktop and Citrix HDX, now with support for HDX 3D & HDX 3D Pro.

Dedicated software and management

Dell Wyse Xenith Manager, now part of XenDesktop 5 and later, delivers tighter integration, vital flexibility and device longevity benefits. And, as it’s provided on the Citrix XenDesktop install media, XenDesktop and Xenith deliver a fully integrated and unprecedented combination of simplicity, performance and security, while ensuring a high-definition user experience. Xenith is the only family of end points integrated into the XenDesktop 5 management console (Desktop Studio).

Green

From reduced manufacturing impact and end-of-life recycling waste, to as little as 7 watts energy consumption in operation, deploying Xenith zero clients will enable your organization to achieve a lighter carbon footprint.

Dell Wyse 3002-Xenith

Overview
With its compact footprint 3002-Xenith is the ideal companion device for Citrix XenDesktop and Citrix HDX technology – ‘straight-out-of-the-box’.

Superb performance and user experience
From the start superb performance is the promise behind every 3002-Xenith. It’s ready to plug-and-play, with its dual core ARM SoC processor and advanced best performance-per-watt hardware accelerator, delivering productive desktops in under six seconds.

3002-Xenith users benefit from high performance connectivity that includes support for two high resolution displays, four USB ports and two PS/2 ports for a host of peripherals, fast gigabit Ethernet and b/g/n WiFi. And all this can be tucked away securely out-of-sight with included VESA mounting for fitting behind monitors.

While Dell Wyse Xenith Manager, included on Xenith Manager 5 and later, means looking after them is as easy as using them.

Dell Wyse 5000-Xenith

Overview
5000-Xenith is the high-performance, high-connectivity zero client for Xen Desktop and HDX.

Ultimate performance boost
5000-Xenith offers more than double the processing power for HDX users, with outstanding playback and display of multimedia and Flash. And its AMD G-Series dual-core APU does it all while lowering power consumption – while boosting performance.

Just like 3002-Xenith, 5000-Xenith frees up desk space with optional mounting brackets for fitting behind monitors, under desks and to walls.
